

10 Things to Say instead of Stop Crying

1. It's ok to be sad

2. This is really hard for you

3. I'm here with you

4. Tell me about it

5. I hear you

6. That was really scary, sad, etc.

7. I will help you work it out

8. I'm listening

9. I hear that you need space.

I want to be here for you.

I'll stay close so you can find me when you're ready.

10. It doesn't feel fair

THE EMOTIONAL CUP

Some ways that children deal with having an empty cup:

- Steal from other people's cups
- Misbehave to get your attention and show that they need a refill
- Seem to have bottomless cups, or need constant 'topping off'
- Can't sit still for refills or actively refuse them
- Bounce off the walls when they approach 'empty'
- Think they have to fight or compete for every refill

What fills a child's cup:

- Play
- Friendship
- One-on-one time
- Love and affection
- Connection
- Succeeding
- Doing what they love

What empties a child's cup:

- Stress and strain
- Rejection by peers
- Loneliness and isolation
- Yelling and punishment
- Failing
- Fatigue
- Doing what they hate

Anxiety presents itself in many different ways...

The desire to control people and events

Difficulty getting to sleep

Feeling agitated or angry

Defiance and other challenging behaviors

Having high expectations for self, including school work & sports

Avoiding activities or events (including school)

Pain like stomachaches and headaches

Struggling to pay attention and focus

Intolerance of uncertainty

Crying and difficulty managing emotions

Over-planning for situations and events

Feeling worried about situations or events

CALM

WHAT YOUR CHILD CAN DO:

- Calm breathing exercises
- Use visualisation meditation techniques
- Body tightening exercises (progressive muscle relaxation)
- Sigh to become fully present in the moment
- Practice music therapy
- Change location / surroundings
- Use a stress ball / fidget toy
- Give themselves a 10-second hug to boost their mood
- Colour, draw, write, craft, etc.
- Practice positive self-talk / words of affirmation
- Exercise
- Go outside
- Play
- Hydrate with water

STRUCTURE & ROUTINE

When things are uncertain, this leads to anxiety. Young people with Speech, Language & Communication in particular require a more concrete and predictable world to feel secure. You can decrease the uncertainty and increase the feeling of security by creating structure and routine for them.

BUILD STRUCTURE INTO DAILY ROUTINE

You want your daily routine to be as structured and predictable as possible. This reduces anxiety. Regular routines that are already in place such as bed times should be continued.

USE A VISUAL SCHEDULE

Try to use visual schedules so they can see what's coming up next. These plot a route through the day for them, creating predictability.

KEEP ROUTINE HABITS THE SAME

Keep your familiar routines consistent between days. For example, going for a walk at the same time each day, or following the same route on the walk.

MANAGE TRANSITIONS

Switching from one activity to the next can be challenging. Make it easier by giving reminders that things are coming to an end and others are beginning. You can use a Now/Next board, or a timer to help prepare for the change.
