## Online Safety

MyLOL – a site which specifically facilitates interaction between 13 to 19-year-olds – has amassed around a million users worldwide, but sadly its safeguarding protocols can't match that level of success. The ease with which under thirteens can sign up and also the ease with which an adult could pose as a teen under a bogus birthdate makes grooming a realistic threat – and that's far from the only risk, as [this guide](#) explains.

## Brookdale Primary School's Weekly Newsletter

I would appreciate it if you could follow the school's procedures for reporting absence and notify the school office directly if your child is absent from school. You can do this via email, School Spider or phone.

Dojo should not be used for this purpose as we cannot guarantee that the class teacher will be able to read the message in time for registration. If the school office do not receive notification, they will need to contact you again to confirm the reason for your child's absence.

Thank you for your support in helping us make sure all our children are safe and accounted for each day!
